CHUBB®

Worldview® for Multinational Business
Global Program Management at Your Fingertips

Worldview is an award-winning technology that has revolutionized multinational insurance program management. Worldview provides real-time access to Chubb's systems and expertise in an easy-to-use, web-based application. It's the most powerful, effective and transparent tool of its kind in the industry, and it's available exclusively to Chubb's multinational clients and their brokers.

See the Big Picture

Worldview helps you to more effectively and seamlessly manage and track all aspects of your global insurance programs, from an intuitive, easy-to-navigate home screen. This innovative and customizable tool enhances the overall customer experience and offers you greater control over your program.

Features

Interactive Dashboard
View all your information at a glance using graphical interactive tiles and a central notification center.

Data Visualization
Utilize drill-down and filter capabilities on interactive charts and graphs to better understand your program data on select pages.

Certificates of Insurance
Easily submit certificate requests for U.S. Multinational programs via Program Summary or the Document Library.

Local Policy Translation
Request English translation of local language polices and endorsements directly within Worldview. Translated versions will be made available in Worldview within 3 business days free of charge for active multinational clients.

Program Summary
Monitor program activities across the global Chubb network in real-time using summary visualizations and detailed lists.You can also track your program against Chubb's best-in-class multinational service standards.

Document Library
Access a comprehensive electronic repository of all policies, endorsements and certificates.

Bulk Download/Merge Documents
Combine policies and subsequent endorsements into one PDF policy pack or download all documents into a convenient zip file at the click of a button.

Multinational Research Tool
The Multinational Research Tool (MRT), powered in part by AXCO, a leading independent supplier of global insurance marketing information, provides critical, up-to-date information allowing users to research, monitor, evaluate and report on the changing compliance and market environment for insurance in over 200 countries and 17 different product lines.

Topics include: Local policy regulations, policy taxes and charges, reinsurance & claims regulations, local standard policy coverage and conditions, and Chubb network information.

Multinational Premium Tracking
Monitor the status of premium payments for captive and deductible recovery accounts across all countries in your program. View an interactive visual summary or review detailed information to better understand payment status.

Detailed Loss Information
Access an online display of loss data, multiple export functions for quick download of loss data, loss reporting tools, loss alerts and triggers, and claim documents.

Discussion Room
Collaboration tool that allows risk managers, brokers, and Chubb underwriting/servicing teams to communicate and share documents directly within Worldview. Users can begin a discussion related to a specific document, program task, or other items. All discussions easily integrate with email, so users can reply on-the-go directly from their email inbox and the response will post back into Worldview.

Program Synopsis
View details of your program in a single, consolidated format. Including policy terms & conditions, financial attributes, and country details. Or create an executive performance report — including key program particulars and Chubb service standards.

Report Center
Generate reports showing the status of various activities on one, or across multiple programs, as well as the details of those activities. Including the ability to easily see where Chubb may need information from the broker or insured to assist with policy issuance. Schedule to repeat and have Worldview deliver the report directly to your inbox — updated automatically each time the report runs.

Multinational IQ
MN IQ provides Worldview clients and brokers with a holistic view of their program(s). Automatic summaries are sent directly to a user's inbox containing all key multinational activity on a weekly or monthly basis. Report data includes recently updated key tasks and documents, including endorsements, all pending items, including those where Chubb may need information from the broker or insured, and an upcoming renewals feature to help proactively avoid policy issuance delays.

Claim Service
Access a comprehensive listing of claims contacts as well as claims submission information.

Resources and News
Contains important documents such as approved vendor and counsel panel lists by industry, coverage line and state in addition to business group specific news articles and whitepapers.

Service Standards
View Chubb's accepted timetable for completion of activities associated with multinational programs.

Global Engineering Network
Link to AGEN™, a Web-based system that offers loss prevention and risk management programs to our clients.

Risk Engineering Resource Center
A vast library of risk management information including technical information, best practices, checklists, videos, and training materials organized into six main categories: Business Continuity, Cyber Security, Fleet Safety, Liability, Property Protection, and Worker Safety.

Smart Links
Quickly navigate to documents and tasks referenced in Worldview emails. Simply click the link, log in, and Worldview will direct you to the specific item referenced in the alert email.

Share Via Email
Attach and send select documents from Worldview to email recipients or other Worldview users.

Contact Information
View complete contact information for your underwriting teams and other individuals servicing your program.

Secure
Worldview utilizes Secure Socket Layer (SSL) protocols, an intrusion detection system (IDS), 256-bit data encryption, and program level user setup/verification procedures
