## About Chubb Global Casualty

---

Chubb Global Casualty offers customized risk management and financing products that meet the needs of large companies. We specialize in primary casualty coverages for Workers Compensation, Auto Liability, and General Liability, and have extensive experience in serving Fortune 500/Global 2000 companies.

## About ESIS

---

For 70 years, ESIS has been a leader in the risk and claims management services field. The breadth and depth of our services are made possible through the deep technical expertise of our more than 1,500 claims, analytics, and technology professionals.

## About ESIS Global Risk Advantage

---

ESIS Global Risk Advantage (GRA), our proprietary Risk Management Information System (RMIS), combines meaningful analysis of loss data with the power of web technology to help drive informed decision making.

## Worldview®

---

Worldview® is our award-winning web-based application that provides real-time access to Chubb's systems and expertise in one application. This powerful platform provides policy issuance, electronic delivery of program documents, claims information, research, translation services, and more.

## Chubb 4D – Claim Analytics

---

Chubb 4D allows us to efficiently capture and organize unstructured data from sources like detailed claim adjuster notes. By mining this data and combining it with structured data captured by our claim's professionals and risk managers, we can see a bigger – and more granular – claims picture. The result: a keen ability to identify potential opportunities and optimize claims outcomes for workers compensation, casualty bodily injury, employment practices liability, and other potential insurance risks your business may face.
