

Chubb Risk Consulting

SERVICES FOR

Private Equity Industry Clients

Private Equity firms are growing their portfolios globally and more private companies have private equity dollars backing them. Chubb's Private Equity practice focuses on the holistic relationship versus one-over-one individual transactions. We have resources deployed across a wide variety of industries ranging from Manufacturing and Real Estate/Hospitality to Life Sciences and Technology to Healthcare and Natural Resources, all with the singular focus to address the unique needs of Private Equity firms and their portfolio companies.

[Chubb Risk Consulting](#) offers tools, resources, and specialization to provide solution-oriented products and services. We craft pragmatic solutions with our insureds and offer recommendations to help minimize

loss potential. Employing a network of nearly 500 global risk engineers and more than 120 risk specialists, with decades of experience, Chubb's risk engineers take the time to understand each company to align service strategies with its business needs.

The [Chubb Risk Engineering Center](#) is fully equipped and staffed to deliver loss mitigation training across multiple lines of business and offers courses specifically tailored to address the unique risks faced by clients. Our Center is dedicated to providing advanced and collaborative educational resources, ensuring clients can access the latest tools and knowledge specifically designed to manage their risks effectively.

Examples of Success Stories

<p>Climate Tech</p>	<p>As a private equity firm evaluated a potential purchase of the electric vehicle (EV) charger manufacturing division of a multinational auto parts and accessories supplier, they approached Chubb to support their due diligence process for budgets and options for insurance coverage. With our extensive knowledge of how EV chargers are manufactured, how they work, and the risks EV charger companies face, Chubb was able to quickly put together a budget and key coverage considerations ahead of the diligence deadline.</p>
<p>Vet Clinics</p>	<p>Every month, a private equity-owned veterinarian group adds 5 or 6 new mom-and-pop clinics to its network of nearly 250 locations. Combining a tailored program with market-leading terms and conditions, single points of contact for Chubb underwriting, claims, risk consulting, and audit, and processes in place to support their acquisition diligence, the firm was happy to move their insurance to Chubb.</p>
<p>Food</p>	<p>A private equity firm, a long-time Chubb client, was looking to acquire a salad dressing manufacturer being spun off from a multi-faceted food company. With our extensive food-specific expertise in risk consulting, underwriting and claims, Chubb was able to show the client that they would be supported by people who understood their business and the risks they face. Food specialists from risk consulting and underwriting visited the client's facilities, conducted extensive surveys, carefully assessed the company's exposures, and reviewed its specific insurance coverage needs.</p>

Lower Your Risk Today with Chubb Risk Consulting
