

Chubb Risk Consulting Library

The Chubb Risk Consulting Library was created with you in mind. Our risk engineers share their deep industry and technical knowledge by offering best practices and guidance to help you mitigate or minimize the impact of a loss.

Resources Anytime, Anywhere

The global Chubb Risk Consulting Library offers hundreds of technical briefs, guides, checklists, training sessions, and more. The library is available to participating business clients as well as appointed agents and brokers. It is accessed via any Web browser and optimized for use on a computer, tablet, or phone.

Risk Management Subject Areas

The library is organized into risk management subject areas, each with a curated collection of resources and tools for a deep dive into the subject.

- Business Continuity
- Climate
- Cyber
- Equipment Breakdown
- Fleet Safety
- General Liability
- Marine Facilities
- Medical Professionals
- Product Risk
- Property
- Worker Safety

Simple Navigation

Filters help you browse the library, including industry, topic, resource type, and language. In addition to the site-wide search feature, you can search within each subject area's collection on its dedicated page.

Features

The home page features a search banner, tiles to access the risk management subject areas, and a **what's new** listing of the most recently published resources.

Each subject area page has a **spotlight** section, highlighting resources most relevant at this moment in time. Items are featured based on news events, weather seasons, and safety calendars.

Add resources to a **favorites** list for future reference. You can also review your previously opened items in the my **history** list.

A **copy link** button makes it easy to share resources with colleagues and staff.

Meet Our Experts

The library also introduces you to our **experts** who author many of the resources. Learn what makes our team among the best in the industry.

We are excited to support you on your journey in risk management. The Chubb Risk Consulting Library is here to serve you. We post new resources each month, so visit often.
